

Stereomicroscope BASIC

Artikel-Nr. 33286

The stereo microscope delivers images at 90x magnification with excellent depth of field, clarity, detail and true-to-life colors and has integrated ESD protection. The reliable, high-performance optics are the prerequisite for consistently precise results. Ideal for a 3D view of tools during incoming goods inspection.

Technische Daten

Coating Technology	PVD HIPIMS PVD SPUTTER
Type	SZ61
Coating procedure	Pretreatment Follow up treatment
Process step	Incoming inspection Quality control
Test method	PVD coating thickness PVD coating adhesion

Your advantages:

- High optical performance with 90x magnification
- 3-dimensional viewing
- True color images with fine details
- Ring light illumination with excellent brightness
- ESD measures to protect against static electricity
- Compact design

Scope of delivery:

- stereomicroscope incl. eyepiece with 20x magnification, ring light and dust cover
