

## Stereomicroscope BASIC

Item no. 33286

The stereo microscope delivers images at 90x magnification with excellent depth of field, clarity, detail and true-to-life colors and has integrated ESD protection. The reliable, high-performance optics are the prerequisite for consistently precise results. Ideal for a 3D view of tools during incoming goods inspection.

## Specifications

Coating Technology	<b>PVD HIPIMS</b> <b>PVD SPUTTER</b>
Type	<b>SZ61</b>
Coating procedure	<b>Pretreatment</b> <b>Follow up treatment</b>
Process step	<b>Incoming inspection</b> <b>Quality control</b>
Test method	<b>PVD coating thickness</b> <b>PVD coating adhesion</b>

**Your advantages:**

- High optical performance with 90x magnification
- 3-dimensional viewing
- True color images with fine details
- Ring light illumination with excellent brightness
- ESD measures to protect against static electricity
- Compact design

**Scope of delivery:**

- stereomicroscope incl. eyepiece with 20x magnification, ring light and dust cover
