With the holder set specially adapted to the CC800®HiPIMS, you can coat up to 1,800 rotary molds* on 6 towers. It is designed for maximum loading, regardless of position sizes or mold dimensions.
We have the most flexible solutions for you!
The PVD holder set contains tower base tables, coating tables with matching tool holders, various adapters and other accessories you need for coating. With holders for shafts between 1 and 50 mm, we offer an extremely wide range. Different holder depths for masking the shanks are available for all common diameters. This gives your tools a clean coating finish for the best appearance. The comprehensive equipment of this holder set enables flexible coating production at highest line utilization. * Ø6 mm x 60 mm
