Revised 2026 - subject to technical modifications

With the holder set specially adapted to the XL-unit, you can coat up to 4500 shank tools* on 10 towers. It is designed for maximum loading, regardless of position sizes or tool dimensions.

We have the most flexible solutions for you!

The PVD holder set XL contains:

- Tower base table
- Coating tables with matching tool holders
- Various adapters
- Other accessories

With holders for shanks between 1 and 25 mm, we offer an extremely wide range. Different holder depths for masking the shanks are available for all diameters. This gives your tools a clean coating finish for the best appearance. The comprehensive equipment of this holder set enables flexible coating production at highest line utilization.
