Set of fixtures for coating inserts CC800®/9 XL

Item no. 33578

Optimized holding systems for precision tools are of central importance for coating. This holder set is used for optimum utilization of your CC800®/9 XL coating system for maximum and reproducible quality.

We would be happy to put together your individual holder set!

Revised 2026 - subject to technical modifications

With the holder set specially adapted to the CC800®/9 XL, you can coat up to 16,400 inserts* on 10 double towers. We offer you the right solution for almost all commercially available inserts! Whether rods, clamp holders or magnetic holders - we are flexible!

The PVD holder set CC800®/9 XL contains:

- Coating towers
- Rods with springs
- Clamping rods
- Magnetic rods
- all accessories (such as clinches, locking rings, dummies, etc.)

With spiked and clamped inserts, the tools remain on the same holder system from pretreatment to coating - making labor-intensive, multiple recharging of inserts a thing of the past.

*12.7 mm x 3.5 mm
