

Service visit of a CemeCon technician

Item no. 35018

Our competent team of service technicians will be happy to assist you at any time with the commissioning of your plant, the coordination of complex projects with a focus on the subsequent operation of the plants, or with any repairs that may be required. The aim is always to ensure the proper functioning of the plants and their peripherals as quickly as possible. In addition, our service technicians will accompany you during briefings, acceptance tests and during the handover of the plants and systems.

Peripheral systems	CR166 CR266 CSAN S1 CSAN S4 CSA 1000 S4

Repairs under warranty are free of charge for our customers. If it is not a service under warranty, we offer you a repair at the following conditions: We charge according to the actual amount of work, taking into account the respective travel costs, expenses and, if applicable, surcharges outside regular working hours. The basis for this is our service charge rates.
